The new catalogue is nearly through the press, and Dr. David King, in a well written preface, gives some interesting details in requard to this institution. It originated with a literary club formed by residents of this place, in 1797; in colonial, times it contained the heat collection of books rolating to English literature and history in New England.— Baron Hottinguer, Dr. Ezza Sities, Bishop Sheriock, Catherine Macaulay, Dean Berkeley and Dr. Channing; despoled by the British, during the Revolutionary was, its fortune scrived with the improved commerce of Newport; and the generous intention of fortunes revived with the improved commerce of Newport; and the generous in:ention of Abraham Redwood, in the original gift which reared the beautiful colifice and atocked it with five hundred pounds worth of standard works—has been more than realized by the "absequent liberality of the friends of literature and education res'ding or visiting here.

MISS ADELINE PATTI'S CONCERT—is to take place to-night, at Ocean Hall, assisted by acceral distinguished Artists from the Academy of New York, the whole under the direction of Strakesch. An official Haytien document, giving the number of births, deaths, marriages and divorces in various villages in different parts of the Empire, during three months, shows that the whole number of children born in three months was 1,900, of whom 1,740 were born out of wedlock. In Port on Prince, the capital, out of 420 children au Prince, the capital, out of 420 children au Prince, the capital, out of 420 children born, only 30 were legitimate. If any country on the face of the earth, where the marriage institution is recently on the face of the capital, can exhibit such a monstrous disproportion between the legitimate and illegitimate births, we know not where it is to be found.

A good story is told in the papers of Mr. Douglas' visit to Mr. Downing's oyster saloon, in this city. While taking an ice cream, Mr. Downing, senlor, the colored partiarch of Broad street, happened to be present, and was pre-ented to the Judge, who humorously inquired shout his politics. To this the old gentlemon responded, with that bland gravity so familiar to the oyster enters who enjoy his ministrations in New York, declaring that his birth at the south and his friendship for the many southern gentlemen whose patronage had been so liberally bestowed on him, would, if nothing the preclude him from sympathizing with Judge Douglas in hivrecent difficulties with them, yet that gentleman end his friends were none the less welcome to the hospitallicits of his saloon. to halt and extinguish the flames, and the modern Phaeren could only keep on his course and suffer the tortur- of being slowly blistered. With quite heroic self-control he gained the end of his journey and succeeded in smothering the fire, but not until his back was sadly burned.

The regutta of the New York Yacht Club, at this port to-day, has proved a very successful affair. The weather was quite favorable, but the wind was none too fresh. Large crowds were in attendance, the spec-tacle being witnessed from steemers and boats, and carriages on the shore.

Twelve beats contended for the prizes, the distance being about 40 miles. A fine start was made about 11 1.2

POOR RICHARD'S EYE WATER.

PRILADELPHIA, July 25, 1860.

Por sizteen years I had sore and inflamed open and eyelius. My father and myself spont not less than two hundred and fifty dollars for a cure, but all in vain. Although we employed six of the beet physicians in this city at different times, they used all the skill in their power, but to no purpose; so inflamed were my eyelids that all my cyclashes came out. W. Wishart, at 56 South Third Street, seeing my suffering, presented me with a houlte of Poor Richard's Fige Water, and I thank God that though I have not used two bottles, my eye sare all well and my lashera growing out rapidly.

NO. 3 ORANGE STREET, PROVIDENCE

A FTER an extensive practice for many
A years, and witnessing the rise and fall
of empyricism to almost an aluming extent,
owing to the laxity of the laws in large cities,
which gives to the mere ignoramus the same
privilege of practicing medicine in all diseases incident to the human system, which
the most ecientific, skilful and experienced
physician and surgeon can in any case claim,
deems it his day to caution strangers to
beware of certain up-starts, who make great
pretensions to the healing art, without an
outle as a shadow of medical education.
The experience of many years in cases of a
venereal nature, in its various forms, will
prave beneficial to those cuffering from such
diseases, and from his practical knowledge
of every symptom consequent on, or srising
from badly cared cases of Venereal Complaint, he would caution all having any
secondary symptoms remaining, to be at
once cuted properly before it has undermitted
their constitution, and broken down the intellectual faculties.
